

E-module: ConnecTo Spiritual Screening Tool

Ready for more? ConnecTo is step two on the learning journey to integrate spiritual care.

'ConnecTo Spiritual Screening Tool' e-module streamlines introducing the ConnecTo Spiritual Screening Tool to care staff. Based on our popular face-to-face session, use the e-module to reinforce key concepts or continue the conversation about what's most important for older people in your care.

The e-module aligns with the new Single Aged Care Quality Standards and the National Guidelines for Spiritual Care in Aged Care.

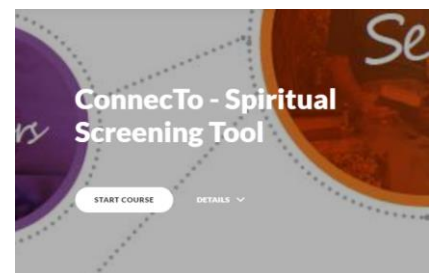

"It doesn't have to be difficult or scary to engage in conversations about spirituality" – Trial participant

ConnecTo Spiritual Screening Tool

This e-module introduces spiritual screening and assessment concepts and invites the learner to participate in real life conversations to integrate their learning. A great way to introduce the ideas in our popular ConnecTo tool, the e-module forms the first part of training in ConnecTo, which also includes a face-to-face learning component. The full program is available as a hard copy resource.

The e-modules offer a range of features and benefits:

- Begins with a refresher on understanding spirituality then introduces ConnecTo.
- Content is presented as text, audio, video, image, and interactive activities, including scenarios
- Quizzes check learning throughout
- A treasure hunt takes participants from the screen to real life conversations to enable integrated learning
- Organisations can integrate these modules with your Learning Management System in order to track participant engagement and completion rates.
- There are full and abridged versions so all staff can access learning appropriate for their role

Trialled in eight organisations across Australia with staff in a wide range of roles including: Lifestyle and leisure, area manager, personal care, admin, chef manager, service coordinator, team leader, allied health and education.
